Composer

Streamlining wealth management product administration

Composer is an award-winning, SaaS-based wealth management administration solution. It helps superannuation funds, investment platforms and managed funds to improve efficiency and ensure regulatory and operational compliance.

Composer offers a comprehensive suite of solutions to streamline the administration of wealth management products from the distribution channel through to the back office, with a digital-first focus.

Based on the latest technology, Composer supports multiple investment products and asset types including the management of model portfolios. Through Composer you can consolidate your business onto a single technology SaaS platform, driving operational efficiencies while reducing risk.

Composer supports over five million active policies and has enabled some of the largest migrations from legacy technology in Australia and globally. Our multi-million dollar investment in upgrading the underlying technology stack of Composer, coupled with our annual R&D spend, ensures your investment is future proofed.

Working together with the GBST team, we have been able to improve and expand our financial technology capabilities to allow us to build out innovative solutions for the retirement income market. We are looking forward to further leveraging GBSTs technology capabilities to continue to improve our product offerings with increased automation and efficiency, which significantly enhances the overall client experience with Generation Life.

Grant Hackett
CEO, Generation Life

Features

01 Drive end-to-end efficiency

Enhance operational efficiencies and lower costs with Composer's intuitive user experience and straight through processing capability, automating key back office processes to reduce manual effort and minimise errors.

02 Scale through technology

Tailor Composer to meet your needs today and in the future, with its scalable architecture and single code base that can easily be configured to support growth.

03 Safeguard regulatory compliance

We monitor the changing regulatory landscape and as part of our standard licence fee we update our systems so you're always compliant. We keep your team updated as well with monthly legislation forums.

04 Operational compliance and certification

GBST is ISO 27001 and ISO 9001 certified, as well as APRA CPS 230 compliant. We meet all the management of operational risk and business continuity requirements that Providers, Trustees, Boards, and senior management now require from their key suppliers.

Inspiring wealth innovation

Technology that delivers the functionality you need to optimise your business

Composer

Intuitive user experience

Get new users up and running quickly and reduce likelihood of errors with easy navigation and guided journeys.

Ease of integration

A suite of integration services increases efficiency, reduces risk and increases the opportunity for innovation.

Modular design

Add new products and services as your proposition evolves with simple and flexible configuration.

Modern technology

Lower cost of ownership and ensure scalable, resilient and secure service delivery with a SaaS-based solution.

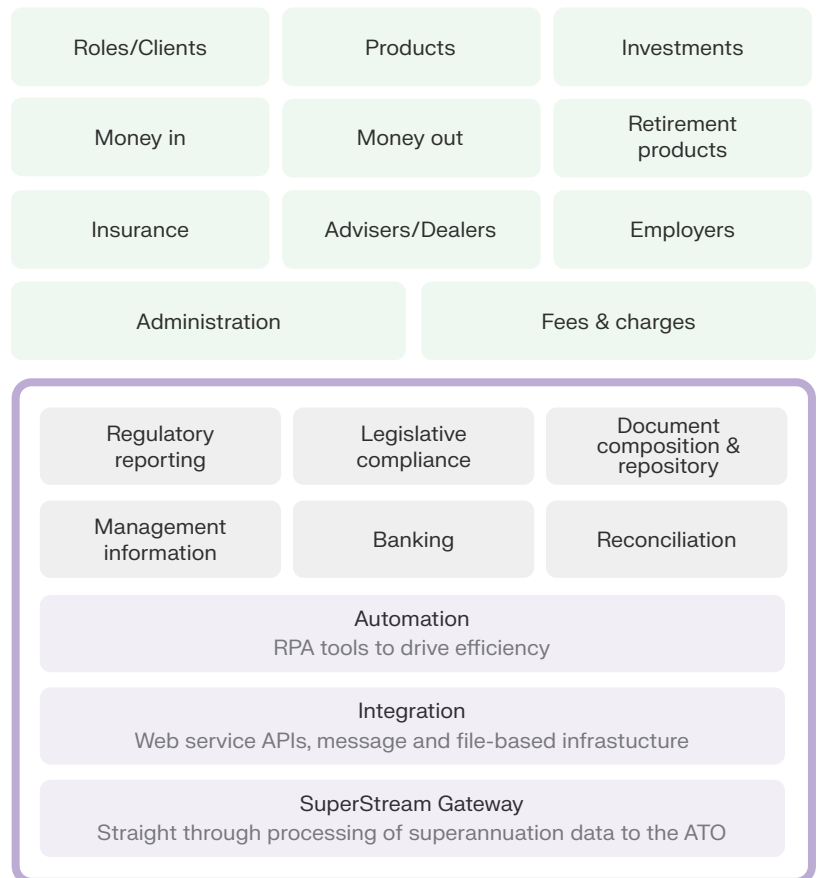

Consolidate onto a single technology platform

Composer is a client centric solution with a wide range of product offerings. It allows you to centralise back book and new propositions onto a single platform.

Its single code base meets the complex requirements of superannuation funds, investment platforms and managed funds. By supporting automated administration, legislative change and product innovation, Composer helps to improve organisational efficiency, cut costs and drive business growth.

Flexible configuration options tailor Composer to your product offering, service and operational process with the flexibility to add new products and services when required.

Back office functional overview

About GBST

GBST delivers technology and digital solutions to enable, support, and scale wealth management and advice organisations globally. Our team of experienced professionals create vital back, middle, and front-office solutions for wealth managers, life and pension companies, stockbrokers, fund managers, advisers, and investment managers, as well as offer financial tools and digital services to banks and loan providers.

Founded in 1983, GBST works with more than 100 financial brands across Europe, Australia, New Zealand, the US, Canada, and the UAE. Our leading-edge technology supports over 5.5 million investor accounts under administration with Direct to Consumer, Advised and Workplace channel solutions.
